Headphones

We are excited to share that all students across the SPCS district will be utilizing new 10th Gen iPads when they return to school in August 2024. These new iPads no longer come equipped with a traditional audio port. Instead, sound is delivered through the USB C port, which is also utilized for charging. It is important for you to be aware of this change so that you can plan accordingly while you purchase your child's school supplies.

Here are your options moving forward:

Option A: Purchase New USB C Headphones: You may opt to replace existing headphones with new ones that come with USB C connectivity. This ensures hassle-free integration with the 10th Gen iPads and eliminates the need for adapters. Again, please label each headphone set with your child's name for easy identification. Examples on Amazon <https://a.co/aTyScu4>

Option B: Utilize Existing Headphones with USB C Adapter: If your child already owns headphones that they prefer to use, you can continue to use them by adding a USB C adapter to each set. Please ensure that the headphones and adapter are labeled with your child's name for easy identification. Examples on Amazon: <https://a.co/bV6t7hy>

We understand the importance of providing a conducive learning environment for our students, and having the right tools, such as headphones, plays a significant role in achieving that goal. Should you have any questions or require further assistance, please do not hesitate to reach out to us. Thank you for your continued support. We are looking forward to an outstanding 2024-2025 school year.
